

POLYCARBONATE

SPORT CAB

CHANGING THE GAME

Doosan does it again with the sleek styling and superior performance of our lightweight, polycarbonate sport cab. Designed exclusively for Doosan's Heart-of-the-Line forklifts, this utility player covers all the bases. Our 'No Wait Time' cab can be factory installed, fitted on location, stocked in your Parts Department, or ordered by the piece. Additionally, the cost of our cab versus a traditional steel cab makes adding it to your roster a breeze.
